

Rest [Lyrics]

[Lifelong Arrangement] by Albert Acosta

INTRO:

VERSE 1:

In the quiet of the morning when the dew is freshly fallen
I can feel your presence calling out to me
Telling me how much you love me as the sun comes shining through
I'm so thankful to have one more day from you

CHORUS 1:

And it's moments like these
When I fall to my knees and pray to you
I need to take the time if I want you in my life, now and then won't do
I will cherish every moment you have blessed
So I can rest So I can rest

VERSE 2:

So many times we forget the cost that was paid to set us free
Let's love and support each other
Together we can change humanity

CHORUS 2:

And it's moments like these
When we fall to our knees and pray to you
We need to take the time if we want to change our lives
Now and then won't do
We will cherish every moment you have blessed
So we can rest
We can rest

Rest -

CHORUS 3:

It's moments like these
When we fall to our knees and pray to you
We need to take the time if we want to change our lives
Now and then won't do
We will cherish every moment you have blessed ...
Yes I'll cherish every moment you have blessed ...
We will cherish every moment you have blessed
So we can rest
